

AI Engineer Resume

Career Objective

Aspiring AI Engineer with hands-on experience in Python, PyTorch, Deep Learning, NLP, Generative AI, RAG, LangChain, and LLM applications.

Technical Skills

Python, NumPy, Pandas, PyTorch, Deep Learning, CNN, RNN, LSTM, GRU, Transformers, NLP, Generative AI, RAG, Embeddings, FAISS, LangChain, LangGraph, LLM Fine-tuning.

Projects

AI Interview Preparation Assistant — Built a RAG-based assistant using LangChain, Hugging Face models, embeddings, FAISS, document retrieval, and an interview knowledge base.

Customer Support AI Assistant — Built a text classification assistant using DistilBERT and LoRA.

AI Research Assistant — Built a PDF RAG system using Sentence Transformers, FAISS, reranking, FLAN-T5, source-page retrieval, and conversation memory.

Education

B.Tech in Artificial Intelligence, Lords Institute of Engineering and Technology.
